

Harmsco Filtration Products

801-0.35 Specialty Cartridges

801-0.35 Sub-Micron Cartridge

Product Description:

Harmsco 801-0.35 filter cartridges are designed for drinking water, D.I. water, beverages, foods, chemicals, pharmaceuticals, electronics, R/O pretreatment and other applications where sub-micron filtration is required.

Materials:

801-0.35 filter cartridges are made from an exclusive blend of Polyester Plus™ filter media, specially made for sub-micron filtration. This unique fiber will not shrink, delaminate or migrate. End caps are Platisol (PVC). Center cores are ABS. All materials are FDA accepted, and may be used for potable water and liquid food applications.

Installation:

801-0.35 cartridges fit all Harmsco industrial filter housings.

Recommended flow rate:

Recommended flow rate is 3 GPM per cartridge or less for optimum results.

Dimensions:

Length: 9-3/4", O.D. 2-3/4", I.D. 1-1/16".
