HARMSCO® SureSafe™ Filter Cartridges

Available for: **Hurricane®**, **WaterBetter®**, **HIF**
 ...and popular single cartridge filter housings.

Harmsco® SureSafe™ cartridges utilize Silver Zeolite technology. Since ancient times, silver has been used to purify water and kill bacteria. Combining silver into our filter media enables our cartridges to help eliminate odor-causing bacteria and inhibit growth of destructive mold and mildew. **Harmsco® SureSafe™** antimicrobial media is fabricated with the latest in **Silver Zeolite** technology. This greatly reduces the growth of bio-films on the filter element. Unlike competitive “treated media” products, **Harmsco® SureSafe™** cartridges will continue to provide safety and protection for your customers while outlasting the competition. **Harmsco® SureSafe™ Silver Zeolite** technology has been effective against more than 650 strains of bacteria, fungi and molds in laboratory environments. It has completed **FDA** testing and is registered with the **EPA**.

Housings	Code	Height/in.	Nominal Micron	No./Case	Ship Wt./lbs.
Hurricane® WaterBetter® Hurricane® Swing Bolt	HC/40-20-AM	9 5/8	20	1	4
	HC/40-50-AM	9 5/8	50	1	4
