Premium quality cartridges are made of pleated polyester with Silver Zeolite Fibers for long life and high dirt-holding capacity.

Harmsco® SureSafe® Cartridges utilize Silver Zeolite technology. Combining inert organic material with silver into our filter media enables our cartridges to help reduce odor-causing bacteria and inhibit growth of destructive mold and mildew on the filter cartridges.

Harmsco® SureSafe® Media is interwoven with the latest in Silver Zeolite technology. Unlike competitive "treated media" products, Harmsco® SureSafe™ cartridges will continue to provide safety and protection for your customers while outlasting the competition.
